# Double Ended Sprays

A diamond shaped flower arrangement made in floral foam that is placed on top of the coffin. The most popular choice for a 'main' tribute, typically from the immediately bereaved. Starting at 3 feet in length and going up to 6 feet, we have included several designs and colour schemes but, as with all of our funeral tributes, please feel free to discuss other ideas with us.

**Please note** that due to the seasonal availability of flowers it may be necessary to vary individual stems from those shown. Our skilled florists may substitute flowers for some similar in style, quality and value. Where our designs include a sundry item like a basket, it may not always be possible to include the exact item as displayed. If such an occasion arises we will make every effort to replace the item with a suitable alternative.

# Crosses and Letters

A cross or a selection of letters are both popular tributes that can go alongside the coffin, or on top instead of a double ended spray. Either traditional in style with a base of white chrysanthemums with ribbon or foliage edging & sprays of your colour choice, or alternatively in a loose informal style in a colour scheme of your choice. Crosses come in a range of sizes from 2ft up to 6ft. Letters can be arranged in any formation that you wish such as MUM, DAD, BROTHER, nicknames or even initials.

**Please note** that due to the seasonal availability of flowers it may be necessary to vary individual stems from those shown. Our skilled florists may substitute flowers for some similar in style, quality and value. Where our designs include a sundry item like a basket, it may not always be possible to include the exact item as displayed. If such an occasion arises we will make every effort to replace the item with a suitable alternative.

# Sprays and Sheaves

A popular choice from relatives or friends of the deceased, single ended sprays are made into floral foam in a teardrop shape tapering to one end. Sheaves are typically tied with loose stems, however these can be arranged into floral foam so as the flowers have a water source for longer life.

**Please note** that due to the seasonal availability of flowers it may be necessary to vary individual stems from those shown. Our skilled florists may substitute flowers for some similar in style, quality and value.

Where our designs include a sundry item like a basket, it may not always be possible to include the exact item as displayed. If such an occasion arises we will make every effort to replace the item with a suitable alternative.
